

How to Install Microsoft Outlook on iOS Devices | M365

Duration: 5 minutes

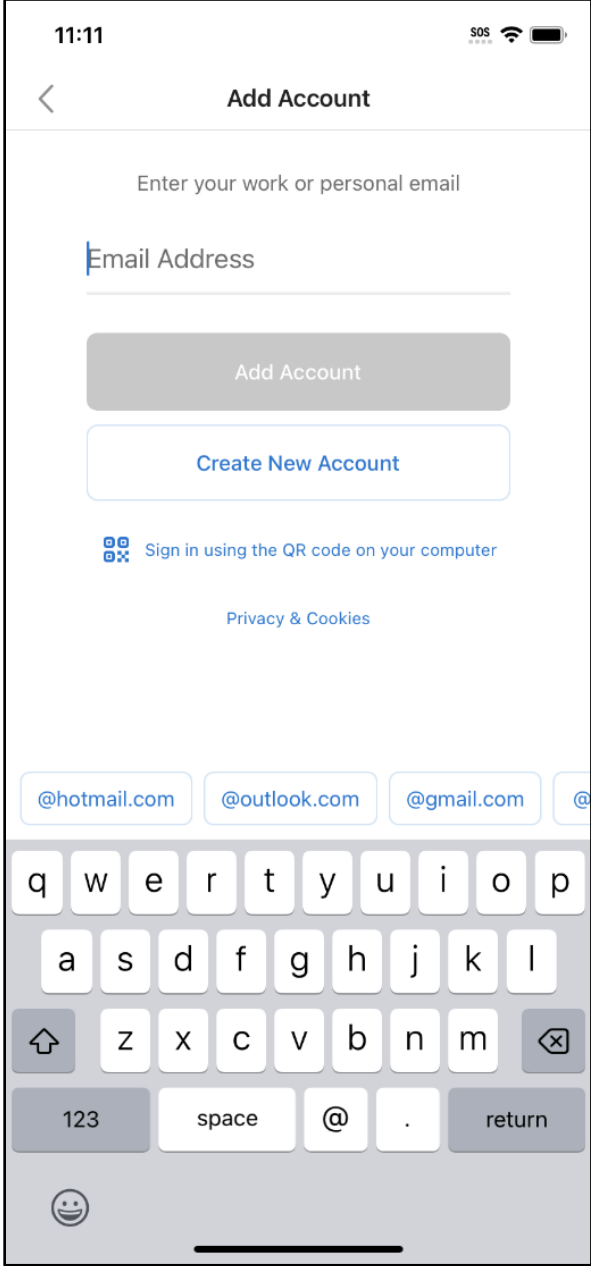

Step 1

Search and install the Microsoft Outlook app from the App Store.

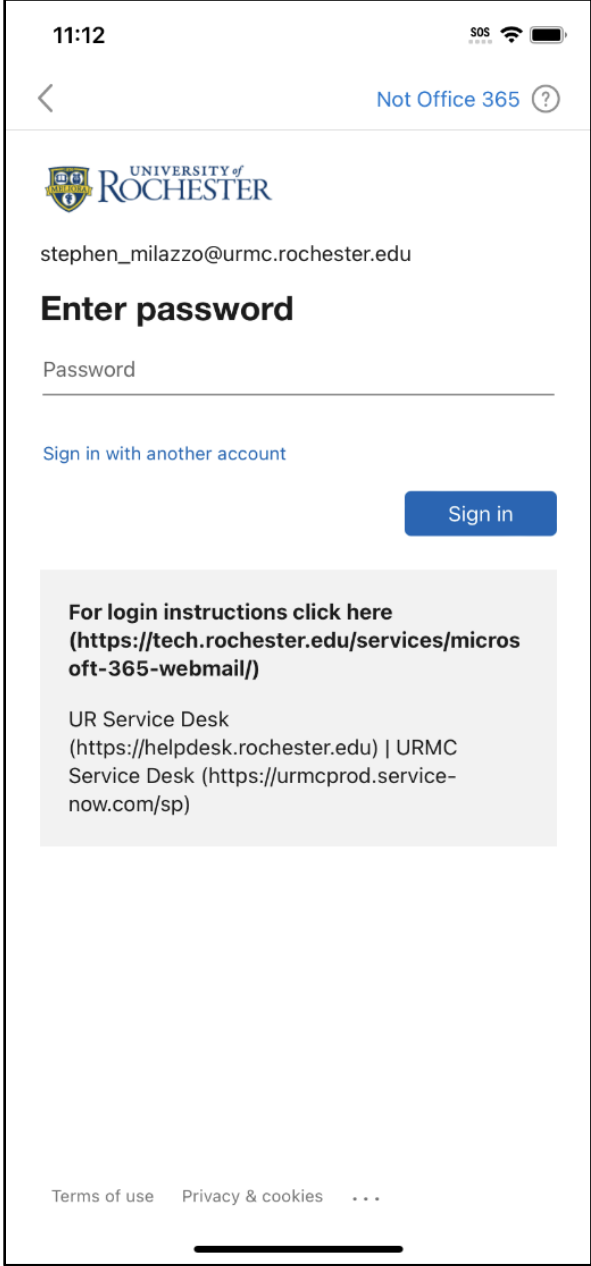

Step 2

Open Microsoft Outlook and enter your work email address. Click Add Account.

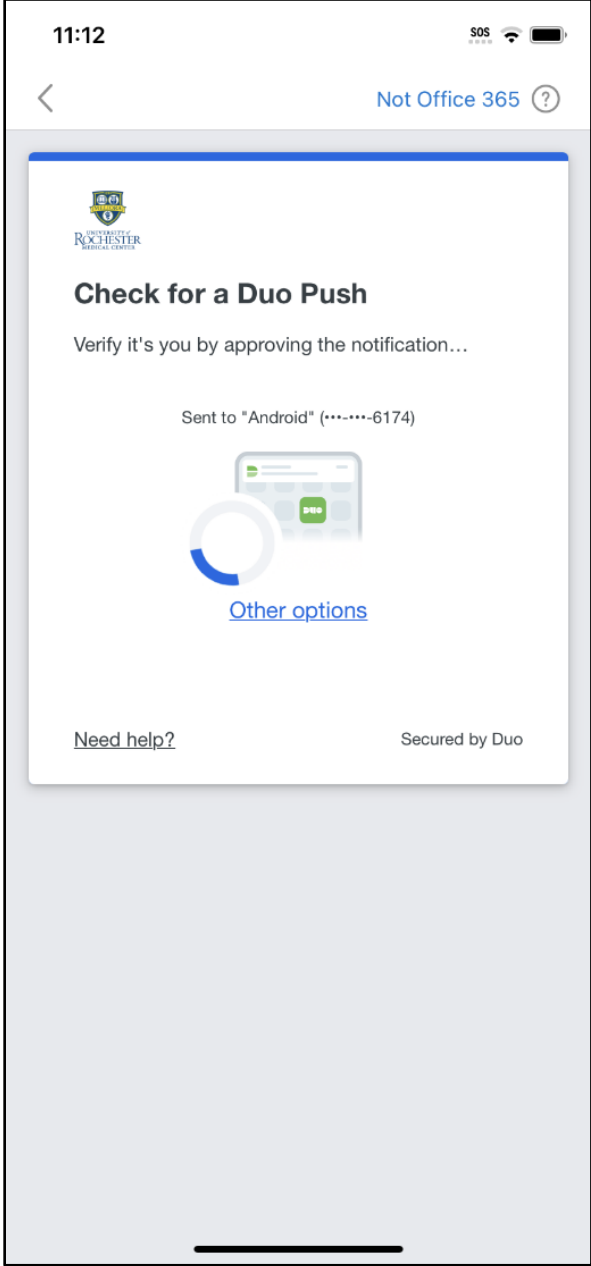

Step 3

Enter your work password and click Sign in.

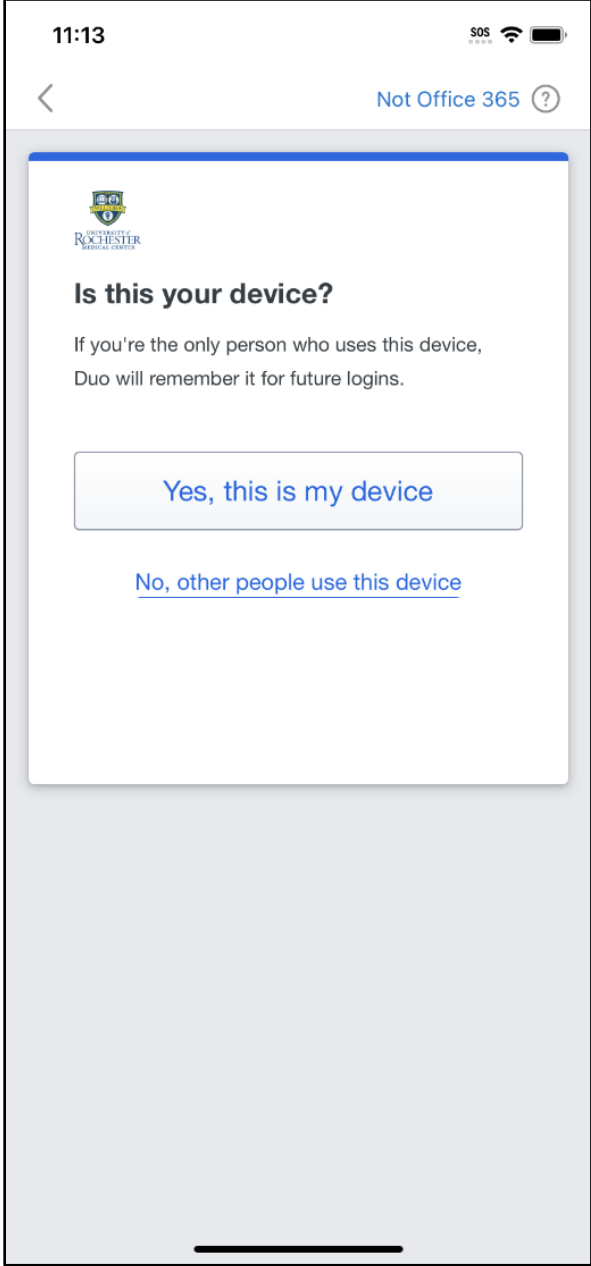

Step 4

Click Approve when you receive the Duo prompt.

Step 5

Answer "Yes, this is my device" for the prompt.

Step 6

Your organization is now protecting the data in the Outlook app. Click OK to restart the app and view your email.
