

Student View a Saved Schedule

It is a Best Practice to create a schedule of your courses for each term if you are registered for more than one course. Here's how you can look at your Saved Schedule in two different views at any time.

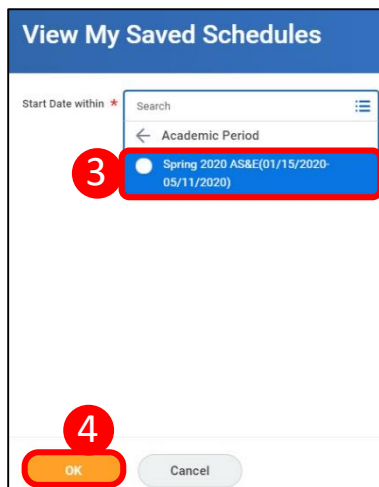

View a Saved Schedule

From your UR Student Home Page

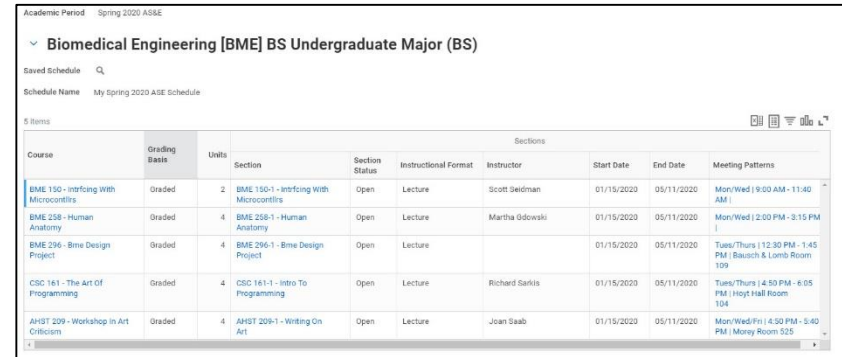

1. Click **Academics Application**
2. Click **View My Saved Schedules** (under *Planning & Registration*)

3. Select the **Academic Term**
4. Click **OK**

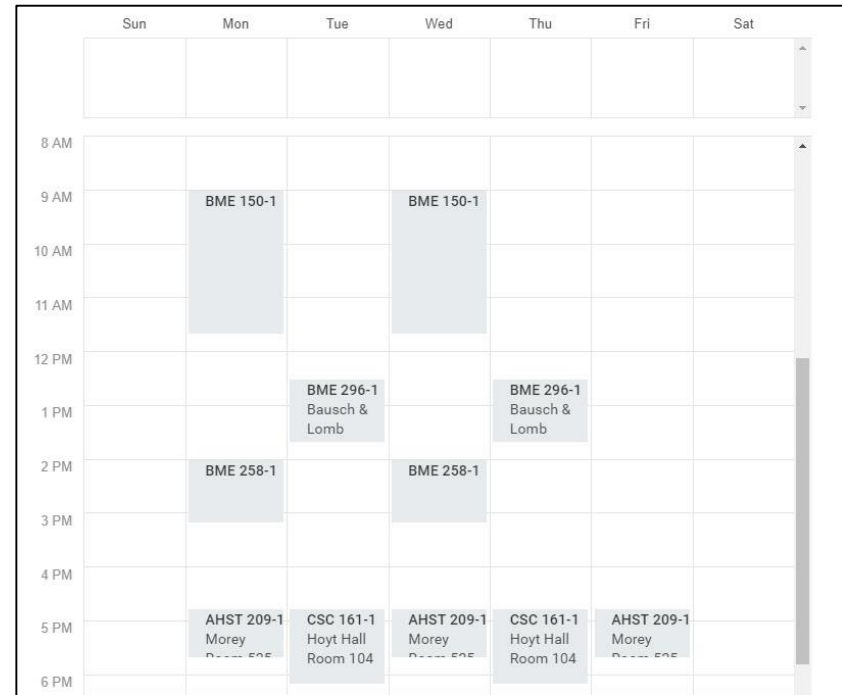

5. The Table view shows your scheduled courses in detail with hyperlinks on important fields to access additional information
