

██████████,

**I know that calling 585-██████████-39 or visiting 445-██████████ DR would be a better way to reach you if you don't act. Don't try to hide from this. You've no idea what I'm capable of in ROCHESTER.**

I suggest you read this message carefully. Take a minute to relax, breathe, and really dig into it. 'Cause we're about to discuss a deal between you and me, and I ain't playing games. You don't know anything about me but I know you very well and right now, you are wondering how, correct?

Well, you've been a bit careless lately, scrolling through those videos and clicking on links, stumbling upon some not-so-safe sites. I actually placed a Malware on a porn website and you accessed it to watch(know what I mean?). When you were busy watching those videos, your device began functioning as a RDP (Remote Control) which gave me total control over your device. I can peep at everything on your display, flick on your cam and mic, and you wouldn't have a clue. Oh, and I've got access to all your emails, contacts, and social media accounts too.

Been keeping tabs on your pathetic existence for a while now. It is simply your misfortune that I accessed your blunder. I gave in more days than I should have looking into your personal life. Extracted quite a bit of juicy info from your system. and I've seen it all. Yeah, Yeah, I've got footage of you doing embarrassing things in your room (nice setup, by the way). I then developed videos and screenshots where on one side of the screen, there's the videos you had been playing, and on the other half, it's your vacant face. With just a click, I can send this filth to all of your contacts.

Your confusion is clear, but don't expect sympathy. As a family man, I am ready to wipe the slate clean, and let you continue with your daily life and forget you ever existed. I am going to provide you two options.

Option 1 is to disregard this email. Let us see what will happen if you select this option. I will send your video to all your contacts. The video is lit, and I can't even fathom the embarrassment you'll endure when your colleagues, friends, and fam check it out. But hey, that's life, ain't it? Don't be playing the victim here.

Other wise choice is to pay me, and be confidential about it. We'll name this my "privacy tip". Now Lets discuss what happens when you choose this path. Your secret remains your secret. I'll wipe everything clean once you send payment. You have to make the payment by Bitcoins only. Pay attention, I'm telling you straight: 'We gotta make a deal'. I want you to know I'm coming at you with good intentions. I will keep my end of the bargain.

**Amount to be paid:** USD 2000

**BTC ADDRESS IS:** ██████████scq9aeQBa59i1J██████████hJ9CT

Let me tell ya, it's peanuts for your peace.

**Pay Attention:** You got one day to sort this out and I will only accept Bitcoin. I have a special pixel in this email message, and now I've been notified that you've read through this e-mail. This email and Bitcoin address are custom-made for you, untraceable. If you are unfamiliar with Bitcoin, google it. You can buy it online or through a Bitcoin ATM in your neighborhood. There's no point in replying to this email or negotiating, it's pointless my price is fixed. As soon as you send the complete payment, my system will inform me and I will wipe out all the dirt I got on you. Remember

if I catch that you've shared or discussed this email with someone else, the shitty video will instantly start getting sent to your contacts and I will post a physical tape to all of your neighborhood next week. And don't even think about turning off your phone or resetting it to factory settings. It's pointless. I don't make mistakes, [REDACTED].

Is this the right place to meet?

Honestly, those online tips about covering your camera aren't as useless as they seem. Now, I am waiting for my payment..
