SUMMER TIPS
FOR KEEPING YOUR INFORMATION SAFE WHILE TRAVELING

1. Be Cautious of Public Wifi
   Public Wifi is not secure, information is easily accessible. Use VPN to secure your connection.

2. Avoid Posting Vacation Plans
   Posting specific times and locations could lead to theft at home.

3. Secure Your Mobile Devices
   Lock your device with a security code. Enable GPS tracking to locate a missing device.

4. Protect Your Personal Computer
   Keep all software, including antivirus, up to date.

5. Monitor Your Account Activity
   After returning home, check bank accounts for unauthorized activity.
